BvL: Optimized cutting unit for self-loader

The V-MIX Fill Plus LS self-loading mixer wagon from BvL is now available with a user-friendly cutting unit that requires even less maintenance.

For nearly 25 years, Bernard van Lengerich Maschinenfabrik GmbH & Co. KG (BvL) has been manufacturing self-loading feed mixer wagons with a view toward continuous improvement of the functionality. Now the feed experts from the Emsland region have redesigned the cutting unit for their current V-MIX Fill Plus LS self-loader. This optimized cutting unit achieves a smoother and more efficient cutting process due to the following features:

- up to 30% thicker counter-cutter;
- manually adjustable counter-cutter, which not only reduces maintenance but also lasts much longer;
- central lubrication point;

- an optional user-friendly central lubrication unit;
- much longer service life as a result of the above improvements.

The family-owned company from the Emsland region offers the self-loading mixer wagon as a single- or double-auger mixer.

The compact version – the V-MIX Fill Plus LS 13 1S – will be on exhibit, equipped with a V-COMFORT turbo straw blower, at the BvL booth (Hall 27, booth G16) at EuroTier 2022 in Hanover.

User-friendly lubrication of the cutter unit knives is assured by a central lubrication point.

The BvL Group is a family operated business, now in its fifth generation. The managing directors are Bernard van Lengerich and Bernhard Sievering, and the company headquarters is in Emsbüren in the Emsland region. The BvL Group has activities in three separate business divisions: Agricultural Machinery, Surface Finishing and Electrical Engineering.

In a nutshell, BvL stands for: Enthusiasm, Responsibility, and Passion! Because with more than 160 years of experience, BvL is firmly established on the market as a dynamic, modern industrial enterprise with over 60 million euros in sales and about 400 employees. An informal working atmosphere fosters flat hierarchies and an innovative team spirit. Personal contact and a positive communication culture have a long tradition at BvL.

Bernard van Lengerich Maschinenfabrik GmbH und Co. KG is among the world's leading manufacturers of feed technology solutions. In addition to feed mixing wagons, the product spectrum includes modern removal technology, spreading technology, biogas technology and digital products. Almost 70 percent of machine sales are generated abroad. The company's focus is on high standards

of quality and custom tailored machines with a wide range of products, which is clearly reflected in the concept "Made for me!"
